OBJECTIVE

- To orient teachers and students in emerging areas of pharmacognosy and phytochemistry.
- To train teachers and students in the current trends of herbal formulation, design, drug delivery system and standardization.
- To hold deliberations on the advances in herbal drug industry and advanced analytical techniques in pharmaceutical field.
- Evaluation of efficacy and quality of traditional medicine. More emphasis is given to the classical pharmacognostical and phytochemical approaches dealing with different aspects of quality control and standardization by using advanced techniques.

ABOUT FOUNDATION
Padmeshree Dr. Vithalrao Vikhe Patil Foundation was established in 1982. To fulfill the visionary thoughts of Padmeshree, his worthy son Hon. Dr. Balasaheb Vikhe Patil (Padmabhushan Awardee), Former union minister, Govt. of India, has started number of institutes in rural area in the field of Engineering, Management, Agriculture, Pharmacy and Medical Sciences.

INSTITUTIONAL PROFILE
Padmeshree Dr. Vithalrao Vikhe Patil Foundation's College of Pharmacy was established in 1994, with a 4 year degree course in Pharmacy (B.Pharm) with an aim to impart quality research and industry oriented education for excellence in the field of Pharmaceutical Science to the future pharmacist. At present the institute also offers Post Graduate Course M. Pharm. (Pharmaceutical Chemistry, QAT, Pharmacology & Pharmaceutics) and Ph.D. research programme.

THEME
Analysis of efficiency and safety of herbal products is of supreme importance as far as concerning to quality of drug. Natural product analysis plays important role to check authenticity, purity and potency of crude drugs.
Standardization of plant based medicinal products has remain always challenging for number of reasons. Various analytical techniques such as UV, TLC, HPLC, GC, NMR have been employed for herbal drugs. This seminar is conducted to discuss the role of these techniques in standardization of herbal drugs. Study of evaluation parameters for quality control of crude drugs is also covered in this seminar. Studies of medicinal herbs, their extracts and polyherbal formulations under each technique would be discussed in order to broaden the knowledge base of teachers and students.
