DR. VIKHE PATIL FOUNDATION

OBJECTIVE

- To orient teachers and students in emerging areas of pharmacognosy and phytochemistry.
- To train teachers and students in the current trends of herbal formulation, design, drug delivery system and standardization.
- To hold deliberations on the advances in herbal drug industry and advanced analytical techniques in pharmaceutical field.
- Evaluation of efficacy and quality of traditional medicine. More emphasis is given to the classical pharmacognostical and phytochemical approaches dealing with different aspects of quality control and standardization by using advanced techniques.

ABOUT FOUNDATION
Padmeshree Dr. Vithalrao Vikhe Patil Foundation was established in 1982. To fulfill the visionary thoughts of Padmeshree, his worthy son Hon. Dr. Balasaheb Vikhe Patil (Padmabhushan Awardee), Former union minister, Govt. of India, has started number of institutes in rural area in the field of Engineering, Management, Agriculture, Pharmacy and Medical Sciences.

INSTITUTIONAL PROFILE
Padmeshree Dr. Vithalrao Vikhe Patil Foundation's College of Pharmacy was established in 1994, with a 4 year degree course in Pharmacy (B.Pharm) with an aim to impart quality research and industry oriented education for excellence in the field of Pharmaceutical Science to the future pharmacist. At present the institute also offers Post Graduate Course M. Pharm. (Pharmaceutical Chemistry, QAT, Pharmacology & Pharmaceutics) and Ph.D. research programme.

THEME
Analysis of efficiency and safety of herbal products is of supreme importance as far as concerning to quality of drug. Natural product analysis plays important role to check authenticity, purity and potency of crude drugs.
Standardization of plant based medicinal products has remain always challenging for number of reasons. Various analytical techniques such as UV, TLC, HPLC, GC, NMR have been employed for herbal drugs. This seminar is conducted to discuss the role of these techniques in standardization of herbal drugs. Study of evaluation parameters for quality control of crude drugs is also covered in this seminar. Studies of medicinal herbs, their extracts and polyherbal formulations under each technique would be discussed in order to broaden the knowledge base of teachers and students.

SCHEDULE

ABOUT FOUNDATION

Padmashree Dr. Vithalrao Vikhe Patil Foundation was established in 1982. To fulfill the visionary thoughts of Padmashree, his worthy son Hon. Dr. Balasaheb Vikhe Patil (Padmabhushan Awardee), Former union minister, Govt. of India, has started number of institutes in rural area in the field of Engineering, Management, Agriculture, Pharmacy and Medical Sciences.

INSTITUTIONAL PROFILE

Padmashree Dr. Vithalrao Vikhe Patil Foundation's College of Pharmacy was established in 1994, with a 4 year degree course in Pharmacy (B.Pharm) with an aim to impart quality research and industry oriented education for excellence in the field of Pharmaceutical Science to the future pharmacist. At present the institute also offers Post Graduate Course M. Pharm. (Pharmaceutical Chemistry, QAT, Pharmacology & Pharmaceutics) and Ph.D. research programme.

THEME

Drug design, referred to as rational drug design, is the inventive process of finding new medications based on the knowledge of a biological target. Thus drug design involves the design of molecules that are complementary in shape and charge to the biomolecular target with which they interact and therefore will bind to it. This workshop is focused on the role of biomolecules in design of new drugs. Understanding various drug targets, their biochemical features, physiological & pathophysiological roles, along with biotransformation of pro-drugs and significance in drug design are to be covered in this workshop. Demonstration of drug design software and lectures of eminent personalities would broaden the knowledge base of teachers and students.

ABOUT FOUNDATION

Dr. Vithalrao Vikhe Patil Foundation was established in 1982. To fulfill the visionary thoughts of Dr. Vithalrao Vikhe Patil, his worthy son Hon. Dr. Balasaheb Vikhe Patil (Padmabhushan Awardee), Former union minister, Govt. of India, has started number of institutes in rural area in the field of Engineering, Management, Agriculture, Pharmacy and Medical Sciences.

INSTITUTIONAL PROFILE

Dr. Vithalrao Vikhe Patil Foundation's College of Pharmacy was established in 1994, with a 4 year degree course in Pharmacy (B.Pharm) with an aim to impart quality research and industry oriented education for excellence in the field of Pharmaceutical Science to the future pharmacist. At present the institute also offers Post Graduate Course M. Pharm. (Pharmaceutical Chemistry, QAT, Pharmacology & Pharmaceutics) and Ph.D. research programme.

THEME

The objective of this state level seminar is to bring together academicians, research scholars, students & industrialists on a common platform to enlighten on "Recent Trends in Pharma Industry" in divergent fields of Pharmaceutical Research, Regulatory Affairs, Patent Policy etc. In 2020, the pharmaceutical industry will continue to witness major changes and challenges. Rapid development of the emerging markets, progress in drug research, the rise in generics production, the availability of high-potency drugs and innovations in manufacturing processes will sustainably modify the global pharmaceutical landscape. In view of this, the seminar definitely will create synergies between industries & research institutions as it will bring together leading experts from various fields of pharma industry on a common dais, resulting in a rich and rewarding exchange of views & experiences of current status and future possibilities in pharma industry.

DR. VIKHE PATIL FOUNDATION

ABOUT FOUNDATION
Dr. Vithalrao Vikhe Patil Foundation was established in 1982. To fulfill the visionary thoughts of Padmashree, his worthy son Late Hon. Dr. Balasaheb Vikhe Patil (Padmabhushan Awardee), Former union minister, Govt. of India, has started number of institutes in rural area in the field of Engineering, Management, Agriculture, Pharmacy and Medical Sciences.

INSTITUTIONAL PROFILE
Dr. Vithalrao Vikhe Patil Foundation's College of Pharmacy was established in 1994, with a 4 year degree course in Pharmacy (B.Pharm) with an aim to impart quality research and industry oriented education for excellence in the field of Pharmaceutical Science to the future pharmacist. At present the institute also offers Post Graduate Course M. Pharm. (Pharmaceutical Chemistry, QAT, Pharmacology & Pharmaceutics) and Ph.D. research programme.

THEME
Diabetes mellitus is one of the most common non communicable disease affecting a large number of populations. WHO estimates about 350 million people in the world have diabetes, with direct cause of some 1.5 million deaths. Around 90% of people with diabetes have type 2 diabetes mellitus. From the onset of the disease until the symptoms develop, many people with undiagnosed diabetes already have complications such as chronic kidney disease, heart failure, retinopathy and neuropathy. Early detection, diagnosis and cost-effective treatments can save lives and prevent or significantly delay devastating diabetes-related complications. Looking into this need; an attempt is being made through this seminar to bring together the practicing physicians, scientists and researchers to discuss the recent concerns, advances, future strategies in the management and research in type 2 diabetes mellitus.

Dr. Vithalrao Vikhe Patil Foundation
Illuminating lives through quality education...

Savitribai Phule Pune University, Pune
Sponsored One Day State Level Seminar on

**Recent Advances in Management of Type 2
Diabetes Mellitus (T2DM) and its Complications.**

17th November 2017

Organized by
Dr. Vithalrao Vikhe Patil Foundation's
College of Pharmacy
Ahmednagar-414 111 (M.S.) India.

"We Pharmacists Caring The People Globally"

OBJECTIVES

- 1) To promote exchange of the latest clinical practices and cutting edge research in diabetes.
- 2) Understanding molecular mechanisms of Diabetes Mellitus and Metabolic Diseases as a part of Experimental Diabetes.
- 3) Strategies for exploring new approaches in identifying targets in anti-diabetic research.
- 4) Approaches for management of complications of Type 2 Diabetes Mellitus.

THEME

The twenty-first century will be the century of knowledge, indeed the century of the intellect. A nation's ability to translate knowledge into wealth and social good through innovations will determine its future. Thus innovations hold the key to the creation as well as processing of knowledge. Intellectual property can be characterized as the property in ideas or their expression. It is a creation of the mind, which protects the rights of individuals and businesses who have transformed their ideas into property by granting rights to the owners of those properties. Intellectual property can be classified into the following four categories: patents for inventions, copyrights for literary works, trademarks, and trade secrets. In recent years India has made robust progress not only in implementing its obligations under the WTO Agreement on TRIPs Rights, but also in developing its own IP regime which endeavors to balance the trade-off between monopoly rights and free access to knowledge. Although no new IP laws have been enacted over the last year, it would be wrong to say that there have been no parliamentary developments with respect to intellectual property.

"We Pharmacists Caring The People Globally"

ABOUT FOUNDATION

Dr. Vithalrao Vikhe Patil Foundation was established in 1982. To fulfill the visionary thoughts of Padmashree, his worthy son Late Hon. Dr. Balasaheb Vikhe Patil (Padmabhushan Awardee), Former union minister, Govt. of India, has started number of institutes in rural area in the field of Engineering, Management, Agriculture, Pharmacy and Medical Sciences.

INSTITUTIONAL PROFILE

Dr. Vithalrao Vikhe Patil Foundation's College of Pharmacy was established in 1994, with a 4 year degree course in Pharmacy (B.Pharm) with an aim to impart quality research and industry oriented education for excellence in the field of Pharmaceutical Science to the future pharmacist. At present the institute also offers post graduate course M.Pharm (Pharmaceutical Chemistry, PQA, Pharmacology & Pharmaceutics) and Ph.D. research Program in Pharmaceutical Chemistry.

THEME

Dr. Vithalrao Vikhe Patil Foundation's College of Pharmacy is conducting Faculty Training Program "Hands on Training on discovery microwave synthesizer and FTIR spectrophotometer with Introduction to benchtop NMR spectrophotometer".

This program intends to bridge the gap between academic training and industry needs in the area of pharmaceutical sciences. It is designed to train postgraduate students, researchers and academicians. The tentative program consist of lectures and hands on practical which is intended to provide a clear understanding of theory, research techniques and methodologies involved in organic synthesis and structural elucidation.

Participants will explore the training sessions on instruments like discovery microwave synthesizer and FTIR spectrophotometer with introduction to benchtop NMR spectrophotometer. This program will provide immense practical knowledge about advance discovery microwave synthesizer and FTIR spectrophotometer which set a platform those who wants to work in the area of drug discovery.

OBJECTIVES

- To provide hands on training on Discovery Microwave synthesizer and FTIR Spectrophotometer
- To train the participants for essential knowledge required in the area of Drug Discovery process.
- To impart skill to handle sophisticated Instrument.

ELIGIBILITY
Faculty and Research scholar

IMPORTANT INFORMATION

- Maximum 40 seats limited.
- Registration fees - Rs 200 (Including lunch).
- Certificate of participation will be provided to registered candidates

| Summary/ Brief Report | : | <p>Herbal medicines have long earned reputation as "the people's medicines" because of their easy accessibility, safety, and the ease with which they are prepared. Generally it is believed that the risk associated with herbal drugs is very less, but reports on serious reactions are indicating the need for stringent government regulation which is crucially important to ensure the quality, efficacy and safety of herbal products was the highlight of the seminar.</p> <p>During these two days of seminar different aspects of phytochemical and pharmacological researches on medicinal plants and herbal medicines and efforts which are being made to isolate and identify their active chemical constituents and to substantiate the claims of their efficacy and safety were discussed. Eminent speakers highlight future prospects of herbal medicines and their products and how they may emerge as good substitutes or better alternatives for synthetic chemicals-based allopathic drugs or may even replace them.</p> <p>The inauguration of program was done by respected dais by doing Saraswati Poojan. Keynote address was given by Dr. M. G. Kalaskar.</p> | | |

Ahmednagar-414 111 (M.S) India
"We Pharmacists Caring The People Globally"

ABOUT FOUNDATION

Dr. Vithalrao Vikhe Patil Foundation was established in 1982 to fulfill the Visionary thoughts of Dr. Vithalrao Vikhe Patil (Padmashree Awardee). His worthy Son Honorable Late. Dr. Balasaheb Vikhe Patil (Padmabhushan Awardee), Former Union Minister, Government of India has started several educational institutes in rural area in the field of Engineering, Pharmacy, Management, Agricultural and Medical Sciences to uplift the rural masses.

INSTITUTIONAL PROFILE

Dr. Vithalrao Vikhe Patil Foundation's College of Pharmacy was established in 1994 with a four-year degree course in pharmacy (B. Pharm.) with aim to impart quality, research and industry oriented education for excellence in the field of Pharmaceutical Sciences to the future Pharmacist. At present the institute offers post graduate course in four specializations (M. Pharm.) Pharmaceutical Chemistry, Pharmacognosy, Pharmaceutical Quality Assurance, Pharmacology and Ph.D. Research program. The institute is accredited by NAAC with Grade 'B' and Permanently Affiliated with Savitribai Phule Pune University.

SEMINAR THEME

Herbal drugs are commonly used in various communities of the world. The popularity of the herbal increased in the past decade, probably due to increase in allopathic drugs prices and due to their adverse reactions. In India, peoples are often using herbal products especially in the rural areas because of availability, affordability and safety. Herbal products are safer and harmless but most of these products contained toxic and lethal concentration of toxic heavy metals, the heavy metals and other toxic Contamination in herbal medicines may occur due to polluted environment in which the medicinal plants grows, the storage conditions or during manufacturing of the final Dosage form. The purpose of this seminar is to discuss importance of quality control and Quality assurance of herbal medicinal product. Quality assurance (QA) is a method that is defined as all those planned and systematic actions required to provide assurance that a product will satisfy given requirements for quality. Herbal drugs have been used since ancient times as medicines for the treatment of a range of diseases. Medicinal plants have played a key role in health benefits.

OBJECTIVE

Our main objective behind seminar is to provide information And new idea for future activities to improve quality of herbal products. to orient teachers And students in emerging areas of herbal medicinal products. to train teachers and Students in traditional, current and future trends of herbal medicines.

SCHEDULE

Day-I

- 09:30 to 10:30 : Registration Tea
- 10:35 to 11:00 : Inauguration
- 11:05 to 11:30 : Key Note
- 11:35 to 01:00 : Session I
